Glass Calibration Pots

Pump & Package manufacture a standard range of 10 designs of glass calibration vessels developed for atmospheric operation. The glass vessel is protected by a UPVC shield, offering optimum safety in case of glass breakage.

If your size requirements are not shown we can custom manufacture units to suit your needs.

End ports available in:
Threaded (NPT/BSP)

End ports and connectors available:

AISI 316 Stainless Steel,
Titanium,
Hastalloy,
Alloy 20
